WITNESSETH

WHEREAS, on the 30 day of December, 20 24, the governing body for the LCSO entered into Resolution/Ordinance No. Ordinance hereinafter identified by reference, authorizing the LCSO 's participation in this agreement with the State; and

WHEREAS, the LCSO has requested the State to permit the construction, maintenance and operation of a public ALPR System on the highway right of way, (ROADWAY See Attachment CONTROL SECTION NO. Ctrl No.). (General description of area including either the control number or GPS coordinates.)

shown graphically by the preliminary conceptual site plan in Exhibit "A" and being more specifically described by metes and bounds of Exhibit "B", which are attached and made a part hereof; and

WHEREAS, the State has indicated its willingness to approve the establishment of such facilities and other uses conditioned that the LCSO will enter into agreements with the State for the purpose of determining the respective responsibilities of the LCSO and the State with reference thereto, and conditioned that such uses are in the public interest and will not damage the highway facilities, impair safety, impede maintenance or in any way restrict the operation of the highway facility, all as determined from engineering and traffic investigations conducted by the State.

AGREEMENT

NOW, THEREFORE, in consideration of the premises and of the mutual covenants and agreements of the parties hereto to be by them respectively kept and performed as hereinafter set forth, it is agreed as follows:

1. DESIGN AND CONSTRUCTION

LC SO will prepare or provide for the construction plans for the facility, and will provide for the construction work as required by said plans at no cost to the State. Said plans shall include the design of the access control, necessary horizontal and vertical clearances for highway structures, adequate landscape treatment, adequate detail to ensure compliance with applicable structural design standards, sufficient traffic control provisions, and general layout. They shall also delineate and define the construction responsibilities of both parties hereto. Completed plans will be submitted to State for review and approval and when approved shall be attached to the agreement and made a part thereof in all respects. Construction shall not commence until plans have been approved by the State. Any future revisions or additions shall be made after prior written approval of the State. Any sidewalks, curb ramps and other pedestrian elements to be constructed, either on site or off site, by the

2. INSPECTION

Ingress and egress shall be allowed at all times to such facility for Federal Highway Administration personnel and State Forces and equipment when highway maintenance operations are necessary, and for inspection purposes; and upon request, all parking or other activities for periods required for such operations will be prohibited.

3. PARKING REGULATIONS

Parking regulations shall be established limiting parking to single unit motor vehicles of size and capacity no greater than prescribed for 1½ ton trucks, such vehicles to conform in size and use to governing laws. Parking shall be permitted only in marked spaces.

The erection of signs other than those required for proper use of the area will be prohibited. All signs shall be approved by the State prior to the actual erection.

5. RESPONSIBILITIES

Timely maintenance, repair and operation of the facility shall be entirely the responsibility of the _____ LCSO _____. Such responsibility shall not be transferred, assigned or conveyed to a third party without the advanced written approval of the State. These responsibilities expressly include the timely maintenance and repair of any portion of the facility necessary to comply with the Americans with Disabilities Act. Further, such responsibility shall include picking up trash, mowing and otherwise keeping the facility in a clean and sanitary condition, and surveillance by police patrol to eliminate the possible creation of a nuisance or hazard to the public. Hazardous or unreasonably objectionable smoke, fumes, vapor or odors shall not be permitted to rise above the grade line of the highway, nor shall the facility subject the highway to hazardous or unreasonably objectionable dripping, droppings or discharge of any kind, including rain or snow.

If the report shows more fees collected than expenses for the construction, operation, or maintenance of the facility the _____ LCSO _____ must provide a multiple year plan detailing how the additional revenue will be used for construction, operation, or maintenance of the facility.

C. Availability. The State or any of its duly authorized representatives, the Federal Highway Administration, the United States Department of Transportation, Office of Inspector General, and the Comptroller General shall have access to the _____ LCSO 's records that are directly pertinent to this Agreement for the purpose of making audits and examinations.

_____ LCSO shall be responsible for the facility's timely removal at no cost to the State. If the State determines that _____ LCSO has failed to timely remove the facility, it will perform the necessary work and charge _____ LCSO the actual cost of the work.

8. MODIFICATION/TERMINATION OF AGREEMENT

If in the sole judgment of the State it is found at any future time that traffic conditions have so changed that the existence or use of the facility is impeding maintenance, damaging the highway facility, impairing safety or that the facility is not being properly operated, that it constitutes a nuisance, is abandoned, or if for any other reason it is the State's judgment that such facility is not in the public interest, this agreement under which the facility was constructed may be: (1) modified if corrective measures acceptable to both parties can be applied to eliminate the objectionable features of the facility; or (2) terminated and the use of the area as proposed herein discontinued.

9. PROHIBITION OF STORAGE OF FLAMMABLE MATERIALS

The _____ LCSO shall provide written notification to the State that such facility will be discontinued for the purpose defined herein. The _____ LCSO shall, within thirty (30) days from the date of said notification, clear the area of all facilities that were its construction responsibility under this agreement and restore the area to a condition satisfactory to the State.

It is understood that this agreement in no way modifies or supersedes the terms and provisions of any existing agreements between the parties hereto.

12. INDEMNIFICATION

No party to this agreement intends to waive, relinquish, limit or condition its general governmental immunity from liability in any way.

Additionally, this agreement shall not ever be construed as relieving any third party from any liability against the State. Furthermore, the LC SO shall become fully subrogated to the State's rights of recovery and shall be entitled to maintain any action over and against any third party who may be liable for damages. The State agrees to execute and deliver instruments and papers and to otherwise do that which is necessary to secure such rights.

The State asserts only that it has sufficient title for highway purposes. This document constitutes a User Agreement which sets forth the duties and responsibilities of the User Agency in order to gain access to the Texas Automated License Plate Reader (LPR) Database administered by the Texas Department of Public Safety (TXDPS). The User Agency shall be a criminal justice or law enforcement agency.

USER AGENCY: Leon County Sheriff's Office (LCSO)

ADDRESS: 606 East St. Mary's Street Centerville, Texas 75833

The LPR Database shall consist of shared data from all participating local, state, and federal agencies, as well as TXDPS captured data, of the following information associated with a license plate captured by an LPR: license plate numbers; latitude and longitude coordinates indicating where the plate was captured; date/time of the capture; and Originating Agency Identifier (ORI) information of the agency capturing the information. The LPR Database shall be maintained, operated, and managed by TXDPS on a 24 hour, 7 days a week, 365 days a year basis.

A. USER AGENCY RESPONSIBILITIES

1. The User Agency may only access and use LPR information for official criminal justice purposes. LPR information shall not be accessed or used for any other purpose.
2. The User Agency shall allow TXDPS to share the User Agency's data contributed to the LPR Database with other authorized criminal justice or law enforcement agencies.
3. The User Agency shall provide its own internet connectivity and maintenance which meets Criminal Justice Information Services (CJIS) Security Policy requirements.
4. The User Agency shall retain sole ownership of, sole responsibility for, and exclusive control over the content of the information that it contributes to the LPR Database.
5. The User Agency shall, at will and at any time, update, correct, or delete the information that it contributes to the LPR Database.
6. The User Agency has the sole responsibility to ensure that the information it contributes to the LPR Database was not obtained and is not maintained in violation of any federal, state, or local law applicable to that agency.
7. The User Agency has sole responsibility and accountability for ensuring compliance with all laws, regulations, policies, and procedures applicable to its entry and sharing of information into the LPR Database, including but not limited to the federal Driver's Privacy Protection Act (18 U.S.C. §2721 et seq.) and the Texas Motor Vehicle Records Disclosure Act (Tex. Transp. Code Ch. 730).
8. The User Agency shall duly report to TXDPS, in writing, any instance in which LPR information is used in an unauthorized manner. Such notice shall be provided immediately, but no later than three (3) calendar days of when the User Agency first learned of the unauthorized use.
9. The User Agency has the duty, sole responsibility, and accountability to make reasonable efforts to ensure the accuracy, upon entry and continuing thereafter, of information that it contributes to the LPR Database.
10. The User Agency is solely responsible for the actions or omissions of its employees and officers.
11. The User Agency shall permit access to the LPR Database only to individual users who meet standard Texas Law Enforcement Telecommunications System (TLETS) credentials.

B. GENERAL TERMS

1. TXDPS shall notify the User Agency if it receives a challenge to or reasonable question about the accuracy of the information submitted by the User Agency in the LPR Database.
2. The minimum retention period for information to remain in the LPR Database shall be three (3) years, unless the User Agency indicates to TXDPS that a shorter retention period is required.
3. TXDPS will provide system training to the LPR Database users at no charge to the User Agency at a time and location to be designated by TXDPS. The obligation of TXDPS to incur training costs is conditional upon sufficient funds budgeted and available. No financial liability shall be incurred by TXDPS by virtue of this User Agreement beyond monies available to it for the purpose of fulfilling this User Agreement.
4. TXDPS reserves the right to immediately suspend service to the User Agency or an individual user when applicable policies are violated. Service may be reinstated, in TXDPS' sole discretion, upon receipt of satisfactory assurance that such violations have been corrected. All costs for reconnection service are the responsibility of the User Agency.
5. TXDPS shall have the authority to inspect and audit the equipment, records, and operations of the User Agency to determine the User Agency's compliance with standards and requirements associated with TLETS, Texas Crime Information Center (TCIC)/National Crime Information Center (NCIC), and of this User Agreement throughout the term and for a period of four (4) years after the termination of this User Agreement. The User Agency shall maintain records regarding the use and dissemination of information in the LPR Database and shall provide such records to TXDPS immediately upon its request.
6. Any waiver of any breach or default of this User Agreement by TXDPS shall not constitute a waiver of any subsequent breach or default or a waiver of the provision itself.

C. DURATION AND TERMINATION

1. This User Agreement is effective upon the date it is signed by the User Agency and shall remain in effect until terminated by TXDPS or the User Agency.
2. This User Agreement may be terminated at any time upon the mutual written consent of TXDPS and the User Agency.
3. TXDPS or the User Agency may terminate this User Agreement for convenience upon thirty (30) calendar days written notice to the other party.
4. TXDPS may terminate this User Agreement if the User Agency fails to comply with any provision of this User Agreement or is otherwise in default by providing written notice to terminate, which termination shall become effective immediately upon the User Agency's receipt of the notice.
5. In no event will termination by TXDPS give rise to any liability whatsoever on the part of TXDPS.
6. All rights, obligations, responsibilities, limitations, and other understandings with respect to the disclosure and use of all information by the User Agency as described in this User Agreement shall survive any termination.

B3	3	¾" thick, Teflon Coated Slip Washer
B4	3	½"-13 Gr. 8 large diameter Flange Nut
B5*	0	⅛" thick Leveling Shim

* may not be necessary for every installation

C: Upper Slip Plate Sub-Assembly

ITEM	QTY	DESCRIPTION
C	1	Top Receiver for Round Sign Support
C1	1	Round Sign Support Locking Wedge

STEP A

1. Install appropriate Unibase (A) plumb & squared up with road, with point of triangular slip plate facing oncoming traffic.

2. Depth of embedment to leave 2-½" (+1½"-½") from grade to top of Lower Slip Plate of Unibase (A).
NOTE: For soil or concrete installation options, see details at lower left.
NOTE: If installing in concrete, auger the footing hole shallow enough to be able to drive 3-4 inches of Unibase (A) into the bottom of the hole. This will help stabilize the unit as concrete is being poured and cured while also allowing for proper drainage.
NOTE: On multi-leg installations, be sure that all Unibases are squared & lined up with each other.

STEP B

1. Place one each teflon coated Slip Washer (B3) on top of Lower Slip Plate of Unibase (A) at each notched point with open end of slot facing center of triangular slip plate. Leave enough room between the closed ends of the slot/notch to allow ⅝" Redi-Torque Bolt (B1) to pass through.

2. Place Upper Slip Plate (C) onto the three Slip Washers (B3) properly indexed so that the round post receiver notched portion is pointing toward oncoming traffic.

3. Slide 1 each ⅝" Flat Washer (B2) on to each Redi-Torque Bolt (B1) then insert Bolt (B1) with Washer (B2) down through notched points of Upper Slip Plate (C), slot of Slip Washer (B3) and notched point of Lower Slip Plate of Unibase (A).

4. Slide 1 each ⅝" Flat Washer (B2) up on exposed thread of each Bolt (B1) followed by threading 1 each ½" Flange Nut (B4) on to each Bolt (B1) as tight as can reasonably be attained using the ⅞" (larger) hex and **NOT** the ⅝" (smaller) hex.

STEP C

1. Insert Round Sign Support into Upper Slip Plate (C) top receiver until support bottoms out.

2. With a hand held hammer, drive the round sign support Locking Wedge (C1) into the Slip Base Top (C) receiver at the pre-determined notch. (The Locking Wedge does not need to be driven flush with top of Upper Slip Plate receiver)

***SHIMMING:** Before moving on to **step 3**, check the plumb of the sign support(s). If necessary, ⅛" thick Leveling Shim(s) (B5) may be used at the appropriate point(s) between slip plates. To re-plumb, loosen Bolt (B1) at desired point enough to lean the Upper Slip Plate (C) back and slide Leveling Shim (B5) into place. Shim(s) should be placed under Teflon Coated Slip Washer. *Maximum of 2 each Leveling Shims per notched point.*

3. After Locking wedge (C1) is securely in place, loosen each Bolt (B1) and Nut (B4), one at a time, then retighten each Bolt (B1), using the ⅝" (smaller) hex, until the ⅞" hex head twists off from the ⅝" hex head. This will set the proper torque level of 52 ft-lbs.

1. UP TO A MAXIMUM OF THREE OMNI DIRECTIONAL SLIP BASES WITH REDI-TORQUE MODEL 280 MATCHPLATE HARDWARE MAY BE INSTALLED WITHIN A SEVEN FOOT SPAN ON MAINLINE ROADWAY.

2. FOR ADDITIONAL WINDLOAD CAPABILITY, A HEAVIER GAUGE POST MAY BE USED.

CONCRETE INSTALLATION DETAIL

NOTE: Recommended footing size a minimum of 12" in diameter and 30" deep.

DIRECT DRIVEN SOIL INSTALLATION DETAIL

NOTE: Install with the widest bearing surface of the stabilizing wing parallel with the face of the sign.

INSTALLED VIEW (FRONT)

REINSTALLATION PROCEDURE:

NOTE: All match plate hardware components are generally reusable except the Redi-Torque Bolts (B1)

1. Remove sign support Locking Wedge (C1) from Upper Slip Plate(C) receiver with a hand held hammer.

2. Place Upper Slip Plate(C) on Lower Slip Plate of Unibase (A) to check for warpage and level of slip plates.

3. Visually check all welds and castings for fractures or other damage.

4. When assured both Lower Slip Plate (A) and Upper Slip Plate (C) are reusable employ new or reused hardware (B) with NEW Redi-Torque Bolts (B1) then follow installation procedures, starting with **STEP B**.
